Appl. No.: 09/848,616

Filed: May 4, 2001

For: **Molecular Antigen Array**

Confirmation No.: 6018

Art Unit: 1648

Examiner: Mosher, M.

Atty. Docket: 1700.0180002/BJD/SJE

**First Supplemental Information Disclosure Statement
Under 37 C.F.R. § 1.97(b)**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Listed on accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. The numbering on this First Supplemental Information Disclosure Statement is a continuation of the numbering in Applicants' Information Disclosure Statement filed on May 7, 2002 in connection with the above-captioned application.

Copies of documents AF2 to AK2 are not provided in accordance with the U.S. Patent and Trademark Office pre-OG notice of July 11, 2003, which states "[t]he Office hereby waives the requirement under 37 CFR 1.98 (a)(2)(i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. national patent applications filed after June 30, 2003." Copies of the remaining documents are provided.

The Examiner's attention is directed to the following copending applications directed to related technical subject matter:

U.S. Application No. 10/622,064, Bachmann *et al.*, filed July 18, 2003, published as Published Application No. 2004/0059094 A1 (Document AD1);

U.S. Application No. 10/617,876, Bachmann *et al.*, filed July 14, 2003, published as Published Application No. 2004/0076611 A1 (Document AE1);

U.S. Application No. 10/622,087, Bachmann *et al.*, filed July 18, 2003, pending (Document AT92);

U.S. Application No. 10/622,124, Bachmann *et al.*, filed July 18, 2003, published as Published Application No. 2004/0076645 A1 (Document AF1); and

U.S. Application No. 10/733,582, Renner *et al.*, filed December 12, 2003 pending (Not Published), which is a continuation of U.S. Application No. 09/449,631, Renner *et al.*, filed November 30, 1999, abandoned (Document AR93).

In accordance with the recent Federal Circuit decision in *Dayco Prods., Inc. v. Total Containment, Inc.* 329 F.3d 1358 (Fed. Cir. 2003), Applicants submit herewith Office Actions from related copending applications as Documents AS95-AS96.

The identification of these U.S. Patent Applications and Office Actions is not to be construed as a waiver of secrecy as to those applications now or upon issuance of the present application as a patent. The Examiner is respectfully requested to consider the cited applications, Office Actions, and the art cited therein during examination of the present application.

Document AR94 is an unverified English language abstract of non English-language Published International Patent Application No. 94/06472, which was submitted as Document AL2 in Applicants' Information Disclosure Statement filed on May 7, 2002.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed before the mailing of a first Office Action after the filing of a request for continued examination under 37 C.F.R. § 1.114. No statement or fee is required.

It is respectfully requested that the Examiner initial and return a copy of the enclosed PTO-1449, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
